- Email: Truman@weihighpsf.com
- Web: www.weihighpsf.com
- Information:

The total project investment of Hebei Junye Fiber is US\$70 million. The total investment of the project is USD 70 million. After the project is completed, the annual output value over 150 million USD, the tax revenue more than USD 7 million with 800 employers. The main product is recycled Polyester staple fiber. The project produces 80,000 tons of polyester staple fiber per year. The main raw material of the product is waste beverage bottles. Through deep processing and reuse, it turns waste into treasure, reduces white pollution, and plays a positive and effective role in environmental protection. The company is one of the earliest enterprises engaged in polyester fiber production in the northern region. It has a strong influence in the industry and is one of the largest recycled fiber production bases in China. Product category: Hollow conjugated (non) siliconized (HCS/HCNS). Low melt fiber (LMF). Solid fiber for spinning or non-woven applications. Color fiber. Functional fiber.

Information:

Polar fleece: a kind of knitted fabric, woven by a large circle machine, woven into the grey cloth first dyeing, and then by drawing, combing, shearing, polar and other post-finishing process processing, fabric front hair, polar fluffy dense and not easy to drop hair, pilling, the reverse hair thinning symmetry, short pile, organization texture clear, fluffy, good elasticity. Its ingredients are generally polyester, feel soft, is the first choice for winter cold products. It is mainly used to make the lining of clothes, but also to make bedding, carpets, coats, jackets, vests, trench coats, clothing signs, gloves, scarves, hats, throw pillows, cushions, shoes and toys. Polar fleece can also be combined with any other fabric to make the cold effect better. In addition, it can be printed to suit your needs. Felpa: has natural skin friendly, soft and comfortable characteristics. Due to the special weaving method, hoodie cloth is relatively more fluffy and soft, and is widely used in autumn and winter cardigans, long-sleeved T-shirts, hoodies and other clothing materials. Coral velvet: is a new kind of fabric. Fine texture, soft feel, not easy to lose hair, not ball, not fade, no irritation to the skin, not allergic. Beautiful appearance, rich color, Common coral velvet are made of polyester fibers DTY150d/288f, DTY150d/144f as raw materials, the filament size is fine, the bending modulus is small, so its fabric has outstanding softness. Coral velvet fabric has the characteristics of fine texture, soft feel, no ball, no fading. Mainly used in nightgowns, baby products, children's wear, pajamas, shoes and hats, toys, car accessories, craft products, home accessories and other fields, more and more popular in the home textile industry. A large number of coral velvet bedding has emerged on the market, gradually replacing traditional bedding. Such as coral velvet blankets, guilts, pillows, sheets, pillowcases and bedding 4-piece sets, etc., deeply trusted by consumers. Flannel; is a soft, fluffy fabric made of coarse varn. The surface has a fine, dense layer of fluff. This is where the name flannel comes from. In addition to making it with a kind of «»gentle»» touch, this layer of fluff can also let the air stay between the fluff, locking the internal warmth while isolating the external cold, so as to achieve a good warm effect. Advantages of flannel:1.The color is rich and diverse. Whether it is a suit, coat, shirt, business or leisure, the rich color and pattern of flannel can meet the individual needs of different people; 2. Soft and comfortable to touch. Flannel has a layer of fine fluff which is not easy to fall off. Flannel is soft and smooth.3. Better heat retention. Due to the slightly fleecy surface, the fluffy structure can trap more air, forming a thermal insulation layer to improve heat retention and durability.»

FASHION

«The publishing Company Almega LLC presents its new resource - an electronic version of the business magazine TOCHKA OPORY. This colorful, dynamic edition covers the activities of various companies in sync with the most significant business events - the largest exhibitions that take place at the Expocenter, Crocus Expo, Sokolniki, Gostiny Dvor, All-Russian Exhibition Center, and the Olympic Sports Complex. This is where the magazine's journey to the regions of the Russian Federation and foreign countries begins. The pages of the magazine publish current materials from press conferences and briefings held by heads of leading ministries and departments of various industries. Particularly noteworthy are articles and interviews with company executives - leaders in industry, construction, architecture, medicine, tourism, science, education, culture, which ensures interest in the magazine not only in large holdings, but also among small and medium-sized businesses in Russia and the CIS. Interest in the magazine is also growing among representatives of the business community in Germany, Italy, the USA, China and other countries. With our help, companies more effectively find new customers, confidently position their brands, products and services, share experiences, establish connections, and confirm their business reputation. This site is intended to better inform all our friends, colleagues and partners about the activities of the editorial office of TOCHKA OPORY in magazines publishing, as well as the implementation of other priority areas.»
